

MOLECULAR PHYSICS¹⁵⁹

VOLUME 14

Printed and Published by

TAYLOR & FRANCIS LTD

RED LION COURT, FLEET STREET, LONDON, E.C.4

CONTENTS OF VOLUME 14

NUMBER 1

	Page
Electronic potential energy surfaces for the reaction $K + NaCl = KCl + Na$. A. C. ROACH and M. S. CHILD	1
The theory of separated electronic groups. I. Configuration interaction for some special configurations. O. M. SORARRAIN and R. E. BALLESTERO ..	17
The theory of separated electronic groups. II. Its possibilities in actual calculations. R. E. BALLESTERO and O. M. SORARRAIN	27
Tentatively standardized symmetry coordinates for vibrations of polyatomic molecules. S. J. CYVIN, J. BRUNVOLL, B. N. CYVIN, I. ELVEBREDD and G. HAGEN	43
The quadrupole moments of dipolar molecules. A. D. BUCKINGHAM and H. C. LONGUET-HIGGINS	63
Pure quadrupole resonance of ^{14}N in some five-membered heterocyclic com- pounds. L. GUIBÉ and E. A. C. LUCKEN	73
The electron distribution at the nitrogen atom in substituted pyridines and related compounds as measured by their ^{14}N quadrupole coupling constants. L. GUIBÉ and E. A. C. LUCKEN	79
The ^{14}N nuclear quadrupole coupling constants of organic nitriles. A. COLLIGIANI, L. GUIBÉ, P. J. HAIGH and E. A. C. LUCKEN	89

RESEARCH NOTE

On the 1H - 1H coupling constants in meta-substituted nitro- and chloro- benzenes. T. F. PAGE	99
--	----

NUMBER 2

The third-order interaction energy between atoms. Y. M. CHAN and A. DALGARNO	101
N.M.R. studies of 3,3,3-trifluoropropyne dissolved in different nematic liquid crystals. A. D. BUCKINGHAM, E. E. BURNELL, C. A. DE LANGE and A. J. REST	105
Triplet yield determination by E.S.R. M. GUÉRON, J. EISINGER and R. G. SHULMAN	111
A lower-bound property of adiabatic phase shifts. C. A. COULSON and R. B. GERBER	117
Nuclear relaxation and molecular properties. Part I. ^{14}N nuclear quadru- polar relaxation and 1H line shapes in nitrogen-containing heterocycles. J. P. KINTZINGER and J. M. LEHN	133
The calculation of fluorine hyperfine interactions in π -electron radicals. A. HINCHLIFFE and J. N. MURRELL	147
The correlation between molecular and atomic Rydberg levels. Part I. An analysis of the Rydberg states of water. Y. HARADA and J. N. MURRELL ..	153
Central force field approximation for the calculation of displacement lattice vibrations of molecular crystals. S. H. WALMSLEY	165
The F centre in alkali halide crystals ($NaCl$ structure). T. F. HUNTER ..	171
Analysis of the N.M.R. spectrum of pyridine using sub-spectral, direct, and perturbation techniques. P. DIEHL and R. J. CHUCK	183

RESEARCH NOTES

Second virial coefficient for an arbitrary potential function. J. R. SAMS ..	193
'Partial-saturation' using nuclear magnetic double resonance in systems involving internal rotation. G. GOVIL and H. J. BERNSTEIN	197

NUMBER 3

	Page
Nitroxides XXVII. Chaleur spécifique du tétraméthyl-2,2,6,6 pipéridinol-4 oxyle-1 entre 1,3°K et 74°K. H. LEMAIRE, P. REY, A. RASSAT, A. DE COMBARIEU et J.-C. MICHEL	201
The use of multiple nuclear magnetic resonance techniques in the measurement of the relative signs and magnitudes of C-C-H and C-H coupling constants in allyl bromide. J. FEENEY and P. J. S. PAUWELS	209
The electron spin resonance spectrum of the 2,4,6-triphenylpyryl radical. I. DEGANI, L. LUNAZZI and G. F. PEDULLI	217
Inner-electron binding energy and chemical bonding in sulphur. F. A. GIANTURCO and C. A. COULSON	223
Intensities of <i>d-d</i> transitions in the tetrachloroferrate(III) anion. S. BALT	233
Nuclear spin relaxation in electrolyte solutions. Some comments on the validity of the relationship of correlation times with shear viscosity in multicomponent systems. M. ST. J. ARNOLD and K. J. PACKER	241
Non-aqueous solutions of electrolytes. II. The temperature and cation dependence of the ⁷⁵ As nuclear magnetic spin-lattice relaxation times of the hexafluoroarsenate ion. M. ST. J. ARNOLD and K. J. PACKER	249
A study of molecular re-orientation in liquid acetonitrile by nuclear spin-lattice relaxation. D. E. WOESSNER, B. S. SNOWDEN and E. T. STROM	265
Oscillator strengths for electronic spectra of conjugated molecules from transition gradients. I. D. P. CHONG	275

RESEARCH NOTES

Deuteron magnetic resonance in deuterated L alanine. D. WARNER, T. GORVIN and W. DERBYSHIRE	281
Temperature, concentration and spinning speed dependence in N.M.R. spectra of oriented molecules. P. DIEHL and C. L. KHETRAPAL	283
Self-consistent field theory and the Kirkwood variation method. A. R. ALLNATT	289
Comment on the paper: Proton relaxation times in ⁷ LiCl and ⁶ LiCl solutions by B. P. FABRICAND and S. S. GOLDBERG. H. G. HERTZ	291
Indirect spin coupling in group VI compounds: TeMe ₂ , SeMe ₂ , HSeMe, H ₂ Se. H. DREESKAMP and G. PFISTERER	295
The adaptation of a high resolution nuclear magnetic resonance spectrometer for heteronuclear double resonance experiments. A. CHARLES and W. MCFARLANE	299

NUMBER 4

Nuclear spin relaxation and chemical exchange effects in the ¹⁹ F nuclear magnetic resonance spectrum of the hexafluoronioabate ion. D. W. AKSNES, S. M. HUTCHISON and K. J. PACKER	301
A new interatomic potential function for helium. D. E. BECK	311
On the superposition approximation and the Kirkwood-Salsburg integral equation. H. S. CHUNG and W. F. ESPENSCHIED	317
N.M.R. spectra of pyrazine and p-benzoquinone oriented in a nematic phase. P. DIEHL and C. L. KHETRAPAL	327
Spin-lattice relaxation and molecular motion in liquid phosphorus trichloride, phosphorus oxychloride and phosphorus oxyfluoride. D. W. AKSNES, M. RHODES and J. G. POWLES	333
On the kinetic theory of chemical reactions in adsorbed gases. J. POPIELAWSKI	341

	Page
The electron spin resonance spectra of randomly oriented trifluoromethyl radicals in rare-gas matrices at low temperatures. J. MARUANI, C. A. McDOWELL, H. NAKAJIMA and P. RAGHUNATHAN	349
Quadrupole collapse of spin multiplets in the nuclear magnetic resonance of protons bonded to ^{10}B . H. WATANABE, T. TOTANI, M. OHTSURU and M. KUBO	367
The spectrum of depolarized light scattered by liquid benzene derivatives. H. C. CRADDOCK, D. A. JACKSON and J. G. POWLES	373
Nuclear quadrupole relaxation of E.S.R. spectra in liquids. H. SILLESCU	381
Dynamic polarization in fluorocarbons: Effect of scalar correlation time. E. H. POINDEXTER, J. A. POTENZA, D. D. THOMPSON, N. V. NGHIA and R. H. WEBB	385

RESEARCH NOTES

The second-order secular equation in the theory of molecular vibrations. Part III. A note on the relative signs of the interaction terms in the G , F and Σ matrices. A. MÜLLER and C. J. PEACOCK	393
Polynomial coefficients. Application to spin-spin coupling with n equivalent nuclei. C. L. PERRIN and J. E. SANDERSON	395
Collision integrals for high temperature gases. L. D. HIGGINS and F. J. SMITH	399

NUMBER 5

An INDO-molecular orbital study of vibronic effects in isotopically substituted methyl radicals. D. L. BEVERIDGE and K. MILLER	401
Dense fluid non-equilibria and the Prigogine theory. P. ALLEN and G. H. A. COLE	413
Perturbation corrections to the g tensor. P. W. ATKINS and A. M. JAMIESON	425
The force field and molecular constants of NF_3 . W. SAWODNY, A. RUOFF, C. J. PEACOCK and A. MÜLLER	433
Le téraphthalate de di(tétraméthyl-2,2,6,6 pipéridinyl-4 oxyle-1) est-il un biradical à échange fort ou à échange faible? H. LEMAIRE, A. RASSAT, P. REY et G. R. LUCKHURST	441
Multi-configuration self-consistent field theory with non-orthogonal orbitals. M. L. BENSTON and D. P. CHONG	449
Magnetic-field-induced quadrupole splitting. R. M. GOLDING	457
The use of the direct and the moment methods in the analysis of N.M.R. spectra of oriented molecules. P. DIEHL, C. L. KHETRAPAL and U. LIENHARD	465
Normal-coordinate analysis of formaldehyde and its deuterated species in the singlet excited state ($1A_2$). S. A. KUDCHADKER, M. Z. EL-SABBAN and B. J. ZWOLINSKI	473
A CNDO calculation of nuclear spin-spin coupling constants in hydrocarbons. R. DITCHFIELD and J. N. MURRELL	481

RESEARCH NOTES

Oscillator strengths for electronic spectra of conjugated molecules from transition gradients. II. Linear polyenes. C. P. YUE and D. P. CHONG	487
---	-----

	Page
Theoretical interpretation of the mass influence on Coriolis coupling constants in four XY_n type molecule models. A. MÜLLER, B. KREBS and S. J. CYVIN	491
Nuclear magnetic resonance studies of a series of phenoxy radicals. R. W. KREILICK	495

NUMBER 6

Electron spin resonance of NO_2 . I. The E.S.R. spectrum of NO_2 in a polycrystalline matrix of N_2O_4 . T. J. SCHAAFSMA, G. A. V.D. VELDE and J. KOMMANDEUR	501
Electron spin resonance of NO_2 . II. Rotation of NO_2 in polycrystalline N_2O_4 . T. J. SCHAAFSMA and J. KOMMANDEUR	517
Electron spin resonance of NO_2 . III. Spin-spin interaction in a NO_2 radical pair. T. J. SCHAAFSMA and J. KOMMANDEUR	525
Quadrupole moments and quadrupole polarizabilities of conjugated systems. A. SCHWEIG	533
Nuclear spin-spin interactions. Part IX. Relative signs of the geminal nitrogen-proton coupling constants for doubly bonded nitrogen. D. CRÉPAUX and J. M. LEHN	547
A method of measuring electric quadrupole moments of molecules in excited states. M. P. BOGAARD and B. J. ORR	557
Théorie de l'échange d'une espèce entre deux conformations identiques par résonance magnétique nucléaire. J.-J. DELPUECH	567
A correlation of infra-red band intensities with chemical reactivity. A. K. CHANDRA	577

RESEARCH NOTES

On the solidification of argon. D. HENDERSON and J. A. BARKER	587
Chemical shifts $\delta^{11}\text{F}$ and $\delta^{31}\text{P}$ of boron, phosphorus (III), phosphoryl and thiophosphoryl halides. A. MÜLLER, E. NIECKE and B. KREBS	591
Spectrochemical and nephelauxetic parameters for Sm(II) , Yb(II) and Eu(II) . K. E. JOHNSON and J. N. SANDOE	595
Solvent dependence of nuclear spin-spin couplings. W. T. RAYNES, T. A. SUTHERLEY, H. J. BUTTERY and C. M. FENTON	599
Index of authors (with the titles of papers)	601
